

COYOTE 

Designed to Endure

This weapon's simple, durable design made it last generations.
Your Coyote grill will do the same.

DURABLE HAS NEVER BEEN THIS BEAUTIFUL.

Coyote Outdoor Living, a new line of ultra high-quality products for outdoor living.

Our new series of Coyote™ grills offers feature-rich outdoor kitchen equipment that will last a lifetime, all in an elegant, timeless style.

High-quality, professional grade grilling is a complex art form—if just one of a dozen different factors goes wrong, the whole system will fail. That's why Coyote™ focuses so intensely on even the most minute details. Not only do we design impressive and unique features like interior lighting, sear burners, and rotisserie roasters, we

also take great pride in things like the construction materials and methods. Every grill box offers fully-welded seams and only uses premium-grade stainless steel, which has a high chromium content allowing it to maintain a rigid crystalline structure at very high temperatures.

The result is an affordable grill that looks beautiful in any setting and consistently produces professional-quality cuisine, year after year. No matter the season, the meat, the chef, or the method, Coyote™ grills always bring the heat.
