ZEPHYR

PRODUCT GUIDE 2025

Why Choose Zephyr?

Leader in Technology and Innovation

ZEPHYR CONNECT APP:

Control compatible range hoods remotely from anywhere, changing fan speed, lighting and more. Seamlessly connect with smart devices such as Amazon Alexa or Google Home smart speakers for voice activation. Get notified with detailed product information, reminders for cleaning or filter purchase/replacement, or simply turn a hood off after use. The app provides quick access to warranty information as well as a library of how-to videos.

POWERWAVE™ BLOWER TECHNOLOGY:

Designed to deliver best-in-class performance with unparalleled quiet operation, inspired by three-phase AC power. This system allows for the installation of dual internal blowers to achieve 1,300 CFM.

AIRFLOW CONTROL TECHNOLOGY™ (ACT™):

ACT™ is a proprietary feature that limits blower CFM to ensure your home is safe and in compliance with local make-up air codes. ACT™ is available in over 90% of Zephyr hoods.

LUMILIGHT LED LIGHT BULBS:

25,000-hour life, dimmable LED, natural 3,000k color output, 3-year warranty. Integrated throughout most of Zephyr hoods.

TRUHUE™ TECHNOLOGY:

Change the colour temperature or kelvin rating of your hood lights to complement your kitchen lighting, from 2700k to 5000k (currently available in the Siena range hoods).

ICON TOUCH® CONTROLS:

Easy-to-clean, 5-speed touch controls that seamlessly integrate into the stainless steel.

ADA COMPLIANT – RF WIRELESS REMOTE CONTROL

Select Zephyr range hoods come standard with a wireless remote control, which meets the American Disabilities Act requirements for ADA compliance. An optional wireless remote-control accessory is also available on many Zephyr models.

OTHER GREAT FEATURES ZEPHYR IS KNOWN FOR:

CLEANAIR FUNCTION

Select Zephyr range hoods feature our CleanAir Function that will turn the hood on once every four hours for 10 minutes to ensure the air is properly recirculated. Any Zephyr range hoods featuring PowerWave™ technology also come with the CleanAir Function, including the Roma Pro Wall, Tidal Undercabinet, and Titan Island.

DELAY-OFF FUNCTION

Many Zephyr range hoods include an automatic delay-off feature, which allows you to set your hood to continue venting for 5 or 10 minutes after cooking is complete and then automatically powers your hood off.

Quietest Hoods in the Industry

Zephyr ventilation products can get as low as 0.5 sones, which is the same level of sound as a soft whisper. Or as low as 1 sone, the same as a refrigerator hum.

Highest Quality with Superior Craftsmanship

Zephyr uses high quality stainless steel that is welded and polished so there are no sharp edges or seams. Zephyr delivers exceptional quality, fit and finish you can see, feel, and appreciate.

Flexibility in Installation Options

More than 60% of models can accommodate top and rear ducting; Recirculation option is available on more than 90% of models; Most chimney hoods accommodate 8' to 10' ceiling heights out of the box with duct cover extension kit options for ceilings up to 12' heights.

Quick-Lock Installation System for Island Models

Install an island range hood in 3 easy steps – what used to take 3+ people, now only takes 2! It's the easiest island range hood installation system in the industry.

Versatile Outdoor Options

From inserts to wall models, Zephyr outdoor ventilation hoods all share the same great features: 304-stainless steel; pro baffle filters; powerful blowers up to 1,200 CFM; large depth; LED lights and a range of widths to cover even the largest of grills.

Zephyr Warranty

Zephyr backs their products with a generous multi-year warranty. 3-year parts and 1-year labor warranty on most models - up to 10-year warranty on select models.
